H OTHER SPECIAL REGULATIONS

- Regulations and safety within the port area – beyond rules according to Swedish law – are defined by the port regulations of the Port of Trelleborg.
- Trelleborgs Hamn AB is member of Swedish Ports and utilizes the organizations' terminal regulations from 1989.
- A day is defined from 00.00 – 24.00
- Vessels length means vessels Loa.
- A contract can be concluded if arrivals and departures of vessels and transported amount of cargo are continued over a longer time period and at large extent.
- For port-stationed vessels, agreements can be made concerning fees and port services.
- Cargo port fees are calculated according to the gross weight and according to the customs definitions.
- For cargo that are loaded and discharged within the port without using the port's quays only 50% cargo port fees apply.
- All prices are excluding Swedish VAT. The payments have to be at Trelleborgs Hamn AB 30 days after invoicing date at the latest, if no other agreements have been made.
